"Disturbing Element" Removed.

The "disturbing element," so to speak, has been removed from the faculty of the Paris city school, regardless of qualifications, and the breach between the people, the School Board and the alleged head of the institution widened to an enormous degree.

The "disturbing element" to which we refer is the deposed music teacher, who after years of connection with the institution in various capacities was truthlessly removed without any apparent cause, except for the reason of a long-since-forgotten episode, rekindled and employed as an excuse for her dismissal by a designing, unscrupulous superintendent and members of the Board of Education.

When we state it was the work of the Board of Education we do not reflect upon the one or more of that body whose honor and respectability would not permit them to be drawn among the cohesive members who stood for the removal of the member of the faculty to whom we refer. As far back as the history of the public school in Paris dates, and with all credit to preceding Boards, it is the first time on record where personal enmity, for which the unfortunate victim was not responsible, where tactics of this character have been employed.

The matter has caused considerable indignation among the people of Paris, principally patrons of the school, whose children felt the influence of this worthy preceptress, and whose removal without any plausible reason other than that she was a "disturbing element" was accomplished alone by the superintendent, who has assumed control of all the affairs of the institution that belongs to the people, by leading certain members of the Board of Education around by the nose. It has been our good fortune to become acquainted with the motive designed for the removal of this teacher, and it is known to many others. The dirty, slimy nature of its concoction is a simple problem to solve, even by the most incomprehensible, and we feel that the public will concur with us in the opinion that the true "disturbing element" destined to corrupt the institution was left untouched by the narrow-sighted members of the Board who cast their votes for another teacher in this department the last session of the body.

The public school, we take it, is a place of learning. It is not to be domineered by an individual or a body who would use it as a cloak to conceal the nakedness of their perfidy; a place of learning for the rich and the poor—for the children of the tax-payer, and for those who are less fortunate. In recent years it has been regarded in a different light—that of belonging to only a few, who were elected to serve the will of the people, not to be influenced by one or more who might center their efforts in this body to settle their grievance. More recently instead of a place of learning and instruction it has become a place of amusement, so to speak, and we might add that, in the absence of other means of entertainment, it has been converted into a dance hall, at the whims of the heads higher up, to satisfy the desire of the pupils for diversions, instead of efforts along plans and ideas of a higher and more benefitting nature. We believe the public will bear with us in the statement that the latest action of the Board of Education, together with the manner in which the affairs of the school have been conducted recently, are a little beyond the measure of endurance. There is a solution, and we are thankful the time is not far distant for the people who sometimes believe in fairness to exercise their right of suffrage in selecting a Board of Education which will go to the real seat of the trouble, eliminate the real cause for the future benefit of the school, and not to be influenced to lend their vote in low and underhand schemes, which, if permitted to continue, will bring to ruin an institution of which the people should feel proud—far-reaching in all branches of public education—justly deserved by the people of Paris.

Plans to Get Rid of Flies.

Try the following plan and absolutely rid your house of flies: Pay twenty-five cents for a fly trap, or, better still, get a half dozen, bait them and place in your yard. Break a little piece from the edge of a bottle or a Mason jar, fill with two per cent. formalin (two tea spoons to a pint of water,) and invert in a saucer, the top of the saucer coming just above the hole in the jar. Put a small slice of bread covered with sugar near the edge of the saucer. Both bottle and saucer may be put in a bracket, so it can be hung in any sunny corner near stable or porch. During hot, dry weather, with no other water near, this device will cover porch, yard or stable with flies that will never lay eggs again. Other poisons may be used, all placed out of reach of dogs, etc. Some such poisoning method, placed out of doors, proves one of the cheapest and easiest solutions of the fly problem. The bottle keeps the strength of the solution, and doles the poison down as needed, so that once set it requires no attention for weeks.

Don't wait for flies to come inside before catching or poisoning them. Get your neighbors to cooperate, and your block, at least, will not be troubled with flies. Comparatively few are alive now. The trouble has been people think of the enormous number in July, and are discouraged, denying the possibility of complete extermination. It can be done, it has been done, and it will be done, in Paris, if you will help.

Have you ever wondered how your child caught an infectious disease "when he hadn't been out of the yard, or near a case?" Remember the fly!

Prohibit Public Drinking Cups.

The following leaflets have been issued:

"The use of common drinking cups on railroad trains, and in railroad stations, public hotels, boarding houses, restaurants, or steamboats, in stores, or other publicly frequented places in Kentucky, is hereby prohibited. No person or corporation in charge of the aforesaid places, and no person or corporation shall permit on said railroad trains, in railroad stations, or any publicly frequented place in Kentucky, the use of the drinking cup in common."

"There must also be posted in a conspicuous place, by the individual or corporation, by the drinking water contained in any of the places mentioned in the foregoing paragraph, a warning cardboard with the above printed thereon in large letters, so they can be easily read. Any person or corporation violating the provisions of this act shall, upon conviction, be fined in any sum not less than one dollar, and not more than ten dollars, and each day's violation of any of the provisions of this act shall be considered a separate offense, punishable by fine in the amount named above."

"All laws inconsistent with this act are hereby repealed."

(Passed by Kentucky Legislature, Session 1912; Governor's signature, March 12, 1912.)

Carlisle Depot About Completed.

The new passenger depot of the Louisville & Nashville road at Carlisle is nearing completion, and will probably be ready to open to the public in two weeks. The building is one of the best in this section of the State, being built of concrete and brick, and roofed with tile. The large freight depot erected of the same material is nearing completion. The two buildings are being erected at a cost of about \$20,000. The railroad is also planning other improvements, and it is said will put in a large amount of additional sidings there.

Porto Rico's New Wonder.

From far away Porto Rico come reports of a wonderful discovery that is believed will vastly benefit the people. Raymond T. Marchan, of Barcelona, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest, and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and \$1.00. Trial free. Guaranteed by Oberforer.

Improving the Roads.

"We favor Federal aid to State and local authorities in the construction and maintenance of post-roads."

This was a Democratic pre-election promise. It was a plank in the platform adopted by the national Democratic party at the Denver convention in 1910. It has been assured that the Democrats in the House of Representatives would give to the people after election what they promised on the stump before election; that Speaker Champ Clark would insist upon having every pre-election promise carried to the letter. It has been repeatedly urged that Democratic Congressmen help the good roads movement as one of the most effective methods of giving the farmers of the United States some of the benefits of the vast government expenditures to which they are justly entitled. This assurance has just been made good, not in words, but in deeds. The Democratic House of Representatives, we are pleased to announce to users of the public roads, has passed the Shackleford amendment to the Postoffice appropriation bill providing for an expenditure of from ten to eighteen millions of dollars annually for the construction and improvement of the nation's roads. The principle on which it is proposed to spend this money is based on compensation to be paid by the Federal government for the use of roads traversed by carriers in the rural free delivery service, and is divided into three classes, as follows:

Class A—The highest form of improved road in the country for which it is proposed to pay \$25 per mile per year.

Class B—A thoroughfare of high quality, but not equal to Class A, for which it is proposed to pay \$20 per mile per year.

Class C—The ordinary dirt road of the country, somewhat improved, for which it is proposed to pay \$15 per mile per year.

Sentiment in favor of road improvement with money now being wasted for fake commissions like the Canadian Boundary Commission—which exists solely to provide berths for lame duck politicians—is growing rapidly throughout the country. For many years the people who live in the farming communities, and in the smaller towns and cities, have felt that too much of the public money was being spent in the large cities. In the last ten years fully 90 per cent. of the public revenue has been spent in the cities notwithstanding the fact that the people of the country have furnished more than half of the money collected by the government. Neither the state nor the national government will be the loser by generous expenditure for public road construction, for the money will ultimately come back through the increase in the taxable value of farm lands. Nor is that the only way it will come back. Whatever makes for the agricultural development of the country also aids other industries in the land. All classes rely upon good crops for prosperity.

NO ONE STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says: "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body." He goes on to show that the stomach is the vital center of the body. For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than

Dr. Pierce's Golden Medical Discovery.

"Several months ago I suffered from a severe pain right under the breastbone," writes Miss G. M. MURKIN, of Corona, Calif. "I had suffered from it, off and on, for several years. I also suffered from heart-burn, did not know what was the matter with me. I tried several medicines but they did me no good. Finally, I was told it was my liver. I did not dare to eat as it made me worse. Whenever I swallowed anything it seemed that I would faint—hurt so. I grew very thin and weak from not eating. Was told to take Dr. Pierce's Golden Medical Discovery. I took five bottles of it, and could feel myself getting better from the first dose. I could eat without pain and grow strong fast. To-day I am strong and well and can do a big day's work with ease. Can eat everything and have put on flesh wonderfully. I will say to all sufferers write to Dr. Pierce. He has my undying gratitude."

Her Responsibilities.

It is a woman's privilege to change her mind, is a time-old saying. All privileges carry great responsibilities. If she has power to change her mind, she has absolute control over her thoughts. And if they be impure, or mean, or shallow, or false, or ungenerous, she alone is to blame.

There never was a time when people appreciated the real merits of Chamberlain's Cough Remedy more than now. The Kinds of Lies.

A Chicago university professor, after exhaustive research, has discovered there are ten different kinds of lies. Under his classification there are the fantasy or fairy tale lie, the vainglorious or boasting lie, the defensive lie, the heroic lie, the white or permissible lie, the society lie, the business lie, the art lie, and the adulterative lie.

Legume Crops and the Nitrogen Supply.

There can be no doubt that the greatest deficiency of Kentucky soils is nitrogen. Says George Roberts, of the Kentucky Experiment station. A deficiency of one element of plant food limits crop production, although all the other elements may be present in abundance. Hence the greatest single factor in restoring our soils to fertility is increasing the nitrogen supply. No one, not even the fertilizer manufacturer, now contends that nitrogen can be profitably bought in commercial fertilizers in quantities required by crops. There is only one source from which nitrogen may be economically obtained in sufficient quantities, and that is from the air by the growing of the leguminous crops (clovers, cowpeas, etc.). Enough legumes must be grown in the rotation to supply nitrogen in the soil for the crops that cannot obtain it from the air, (such as corn, wheat, etc.), and to replace that which is being lost in the drainage waters. The nitrogen supply cannot be kept by merely growing legumes in the rotation and harvesting them and not returning the manure in good condition. Two thirds of the nitrogen of the manure is excreted in the urine. This is generally lost. As manure is generally handled by throwing it out in piles, two thirds of the nitrogen of the solid manure is easily lost by heating and leaching it from four to six months. Ordinarily not more than one third to one sixth of the nitrogen in the feed consumed is returned to the soil in the manure.

In order to keep up the nitrogen supply there must be an abundance of legumes in the rotation, and all manure produced must be carefully saved and returned to the soil. The most practical way to handle the manure is to use sufficient bedding to absorb the urine, and then spread the manure as fast as made. It is generally spread on the sod to be turned for corn, but it may be spread on meadows a year before breaking for corn. When it is impossible to remove the manure it is safe to allow it to accumulate in the stalls. In case it must be piled outside the stalls, it should be closely compact to exclude the air, and protected from rains, either by capping with straw or by shelter.

It may be necessary now and then to turn under a legume crop in order to keep up the nitrogen supply. The following rotation is used on the Experiment Station Farm: First year, corn with cowpeas sown at last cultivation. When the corn is removed the peas are disked in and the ground sown to rye for a cover crop. Second year, the cover crop is turned under, followed by cowpeas or soy beans. When these are removed the ground is disked and sown to wheat for the third year crop. If the clover fails, as it often does, the ground is broken as soon as the wheat is removed, and thoroughly prepared for clover, which is seeded about August 20th, along with a little timothy. It gives a good crop of hay the next year and avoids breaking up the regular rotation. We believe that it pays to seed the clover after the wheat is removed, although it takes a little extra labor, as the stand is much surer than when seeding with the wheat in the spring. The manure produced is put on the clover sod.

On many soils legume crops cannot be successfully grown until lime or limestone has been supplied to correct sourness. Also many Kentucky soils are too deficient in phosphoric acid to produce large crops of legumes. This statement applies to nearly all our soils outside the Blue Grass region.

Cure for Pneumonia.

Take six large onions, chop them fine and put in a pan over the fire; then add the same quantity of rye meal and vinegar, enough to make a thick paste. Stir thoroughly and let simmer for about ten minutes. Then put in a large cotton bag and apply to the chest as hot as can be borne. In ten minutes apply another. By re-heating the poultices, continue for a few hours. The patient will be much improved. Three or four applications are sufficient.

Eating Fish in Lent Alled Navy. The connection between fish eating during Lent and a strong navy may appear remote, but to Elizabethan statesmen it seemed vital. So much so that a law was passed commanding everyone to eat fish on every day of Lent. The reasons set forth for this enactment made no mention of religious observance. It stated the queen needed ships for defense and the fishing industry furnished men at all times in readiness for her majesty's service.

KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Paris People Know How to Save It.

Many Paris people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following statement leaves no ground for doubt:

John W. Myers, blacksmith, E. Main St., Carlisle, Ky., says: "We are hardly ever without Doan's Kidney Pills in the family, as they are a fine kidney medicine. My kidneys were weak and acted irregularly. The kidney secretions also contained a sediment and my back ached. When I heard about Doan's Kidney Pills I used them, and since then I have had no further trouble."

Paris closed the series with the Winchester Hustlers Friday, winning by a score of 5 to 1 a game marked by rugged fielding on the part of the Hustlers and the continuous squabbling of the players of both sides with umpire Mulligan. Kunkle was put out of the game for wrangling with the official and Walsh was assessed a fine of \$5 when he took up the argument.

Blankenship for Paris, pitched superb all, and after the firstinning the Hustlers never had a chance to score. The score:

To Make the Boy Obedient.

If you want your boy to be orderly provide him with a place of his own wherein he may keep his baseball implements, sporting paraphernalia, tools and the thousand and one other articles dear to his boyish heart. The possession of a locker to which he alone carries the key is sure to stir the pride of every ambitious boy, especially if he is allowed to build it—Housekeeper.

Unhurt by Long Fall.

A fall from a second-story window of her house in Philadelphia did little more than jar an aged lady the other day. When members of the family reached her side they found that she had sustained only a few bruises. A doctor said no bones were broken, and that she would be about again in a day or so. She was leaning from the bathroom window when she lost her balance and fell to the yard.

Callahan Succumbs to Wounds.

Program for Art Exhibition.

Ed Callahan, well known Breathitt county merchant, ex-sheriff and feudist, who was shot from ambush Saturday, May 3, died Saturday night at 11 o'clock at Witherspoon College Hospital at Buckhorn.

Pneumonia which set in the night shortly after the shooting, caused his death. It is believed he would have lived had not fewer set in.

Callahan was buried at the home graveyard at Crockettsville yesterday afternoon. Just before he died he was asked to make a statement and he said:

"I know I will die and that soon. I have forgiven all my enemies and I want them to know it. I want all my people to live in peace, pull together and do the best they can. I have been trying to live as I should for the last five years, and I have interfered with the business of no other man, and I do not think I should have been murdered while attending to my own business and at work. I believe that I will go to a better world, and I want my people to live right and meet me there."

"I want my little boy educated. I want to be buried by my dear old mother. She was my true friend and I expect to meet her above."

No arrests have been made, and no clue to the identity of the guilty has been made known.

Boots, Oxfords and Pumps.

Plenty of white Newbuck boots for ladies, also oxfords and pumps, now on sale at Felt's Shoe Store.

Notice.

Liverymen, and all owners of horses, cows, etc., within the city limits: Remove manure heaps from your premises not less than once in each seven days. Heed this notice, please. The law will be strictly enforced.

Price Corner Sold.

The Directors of the First National Bank of Paris have purchased the property located on the Southwest corner of Main and Fourth streets, from the heirs of the late L. Price, and it is said the purchasers plan to erect upon the site a commodious banking and office building.

The property purchased belonged to Mr. Ike L. Price, of Paris, and his sister, Mrs. Carrie Herzog, of Cincinnati, and is occupied by the firm of Mann & James and the East Tennessee Telephone Co., the bank securing the property facing along Main street to the center of the hallway.

The price paid was \$12,000 or nearly \$600 per front foot. Taking the improvements into consideration this is probably the highest priced piece of real estate ever sold in Paris. The leases of the present occupants of the property are for a term of years, the East Tennessee Co. running for five years longer and that of Mann & James for two years, will likely be arranged for by the new purchasers in order to get earlier possession of the property to begin the construction of the new building.

Refrigerators.

Our stock of refrigerators is the largest we have ever had. All kinds at all prices. Don't forget we are agents for the celebrated North Star

County Graduates Examined.

The examination of county school graduates for common school certificates was held in the office of the County Superintendent, Miss Mabel Robbins, Friday and Saturday. Nineteen applicants, thirteen white and six colored, took the examination, the whites being Hiram Adair, Mabel Adair, Robert Delaney, Alice Cornish, Bessie Sweeney, Gertrude Bramel, Dorothy Fleming, Lillie O'Neal, Bertha Harvey, Rose Gifford, Minnie Kiser, Ada Plummer and Georgia Oliver.

Colts and Paris to Meet.

The Colts and Bourbonites will meet this week for the first time since the opening of the season and the two teams will furnish the entertainment for the fans of Paris and Lexington three days. The Bourbonites will meet the Rivermen in the last game of the series this afternoon and Wednesday they will go to Lexington for a tilt with the Colts, who will also be the attraction at White Park Thursday afternoon. Friday the locals will again go to Lexington. On the occasion of the visit of Paris to Portland, a special rate of 60 cents for the round trip on interurban cars will be granted.

Purchases Hemp.

Mr. Fred Batterson, who has been in the vicinity of Lancaster, Danville and Stanford for the past several weeks purchasing hemp for the firm of E. F. Spears & Sons of this city, has returned and reports that he has purchased for his firm between two and three hundred acres of hemp, the delivery of which will be made to the local firm's warehouse in this city, as soon as the fiber is broken out. The price paid for the entire amount will average in the neighborhood of 6 1/2 cents per pound. Mr. Batterson states the hemp is in excellent condition at this time and will break out heavily.

Program for Art Exhibition.

The two hundred pictures arrived yesterday and will be arranged in the corridors of the Public School building at once.

The exhibition will open Wednesday at three o'clock, p. m., and will be open until five o'clock. It will open again at 7:30 at night and will be open each afternoon and evening Thursday, Friday and Saturday.

Sentenced to Reform School.

Mose Love, aged thirteen years, son of Dan Love, was sentenced to the Reform School, Friday, by Squire L. J. Fretwell, and was taken to that institution, Saturday, by Patrolman Fred Link. Young Love was charged with the theft of a sum of money, amounting to about \$17 from the home of Mr. John Davis, on Cypress street, about a week ago, and was arrested last Tuesday night by Officer Link. The money which was taken by the boy was in a small bank, which he took to the cellar of the house where he was employed, breaking it open. Small pieces of the bank were found, which led to the suspicion and arrest of the boy.

"Skullbuster" to Go.

One of the historical landmarks of Scott county is being torn down to make room for a more modern and commodious structure. It is the Corinth Christian church, one of the oldest institutions in this section of the State. It has long been known as the "Skullbuster" and is said by the oldest inhabitant to have derived its unusual name from the fact that the doors of the quaint old house, built of logs were so low that unless the taller members of the congregation stooped on entering they were sure to bump their heads.

Jones Lot Sale Wednesday, May 15.

If you are looking for a healthy location for a home don't fail to attend the Jones lot sale, in old fair grounds addition, or Wednesday afternoon, May 15, at 2 o'clock. This is the most desirable property in Paris and the terms are so easy that anybody able to rent can own his home.

Fair Directors Hold Meeting.

The officers and directors of the Bourbon County Agricultural Society held a meeting last week, at which it was decided to hold a five days' fair meeting the first week in September, beginning Tuesday, September 3. A motion to continue the one-judge system in all the events was carried. This rule was adopted last year and was found to be very satisfactory. The meeting was presided over by the President, Joseph M. Hall, with C. A. Webber, secretary; C. Arnpgrer, treasurer and directors J. T. Hinton, A. P. Adair, J. F. Barbee, J. D. McClintock, R. B. Huthcraft and R. P. Hopkins present. All the committees to have charge of the fair will be appointed by the President, and will be announced at a later date. It was also decided to have side attractions as heretofore, with entertainments at night. The dining room privilege was let to the Women's Society of the Christian church.

Rains May Injure Grass Seed.

Farmers of Bourbon county are growing a trifling uneasiness lest the heavy rains of the past week should prove injurious to the blue grass seed crop, which gives promise of being large in quantity and remunerative in price. However, it will be several weeks yet before the maturity of the seed, and several days of warm weather would have a wonderful effect. Spears & Sons have already purchased about 50,000 bushels of seed at \$1 per bushel.

Heavy Rains.

The heaviest rain in this section for a number of years fell Saturday night. The deluge resembled a cloudburst and the street in many places ran almost knee deep with water. The sewer being inadequate to carry off the large amount of surface water it was backed up in many places over the sidewalk, rendering them impassable. The rain was followed by a sharp decline in the temperature, and Sunday was the most disagreeable day for the time of year experienced in the past eighteen years. A high wind raged all day, and Sunday night the thermometer registered below fifty degrees.

SALE OF

City Property!

BOURBON CIRCUIT COURT.

Wm. Grannon, Committee of Phil Deignan, Plaintiff,

vs

Phil Deignan, Etc., Defendants.

Under and by a judgment of the Bourbon Circuit Court, rendered in the above styled action, the undersigned Master Commissioner will sell at public auction to the highest and best bidder, on the premises, in the City of Paris, Ky., about the hour of 2 o'clock, p. m. on

Wednesday, June 5, 1912,

the following described property:

A certain house and lot situated in Paris, Ky., and described and bounded as follows: Beginning at a point on the Winchester pike corner to lot formerly owned by J. M. Thomas, and running in a Southerly direction with said pike 53 feet; thence in an Easterly direction 154 feet, more or less, to the margin of Vine street; thence with the margin of said street, in a Northerly direction 92 feet, more or less, to a stake in the line of said street; thence Westerly 22 feet to the beginning.

Also a certain house and lot situated in the City of Paris, Ky., and described as follows: Beginning at a point in the margin of the Winchester pike 53 feet from the lot formerly owned by J. M. Thomas and running with the margin of the Winchester pike a distance of 100 feet, more or less, to the intersection of Vine street and Winchester pike, and then with the margin of Vine street in a Northerly direction 205 feet, more or less; thence Westerly 154 feet, more or less, to the beginning.

The undersigned Master Commissioner will offer each of the above described tracts separate. Said sale will be made upon the credit of six and twelve months for equal parts of the purchase money, the purchaser being required to execute bond for equal parts of the purchase money with good surety, to be approved by said Master Commissioner, payable to said Master Commissioner, bearing interest at the rate of six per cent. per annum from date of sale until paid. Having the force and effect of a judgment, and to remain a lien upon the property sold until fully paid. The privilege is given the purchaser or purchasers to pay the purchase price in cash without executing bond, or he or they may pay the purchase money at any time before maturity and stop the interest thereon.

Brenlin Window Shades

have been reduced in price!

The widespread sale of Brenlin Shades has enabled the manufacturers to greatly reduce the cost of their production. For just a trifle more than the price of ordinary shades you may now have Brenlin—the shade that contains no “filling” to streak, crack, fade or show unsightly “pin holes”—the shade that always hangs straight and smooth and lasts several times as long as others.

BRENLIN is made in many artistic tones and in Brenlin Duplex—colored one side, white the other. Come in and let us show you samples and quote prices.

STOCK, CROP AND FARM NOTES.

The tobacco barn of Church Barkley in Scott county, was destroyed by fire last week, causing a loss of several thousand dollars. Incendiaries blamed.

—Simon Weil & Co., of Lexington, who have been slopping 700 cattle at the distillery of Baker Bros., at the Forks of Elkhorn, in Franklin county, have sold their cattle to the Morris Packing Co., of Chicago, and the shipment has already begun. This is said to be one of the best lots of slop-fed cattle that ever left Kentucky, averaging something over 15,000 pounds each, and Weil & Co. will get a little over seven cents per pound for the lot, making \$73,500 for the whole lot.

Judgment of the Pendleton Circuit Court in the case of the Burley Tobacco Society against H. F. Monroe and others, was reversed by the Appellate Court, Friday, and the case remanded with directions to set aside an order of injunction, and dismiss the petition and cross petition.

The action grows out of the pooling of tobacco in Pendleton county in 1909, when 1,200 growers went into the pool. The pool aggregated 2,328 hogsheads. Prior to the suit the society sold 1,031 hogsheads. In November, 1911, Monroe and seven other farmers in the pool sued for a receiver to take charge of the pool and for a distribution of the funds. The Pendleton County Board of Control, by cross petition, prayed the same relief.

The trial Judge held that the Burley Society did not have the right to sell the pooled tobacco without the approval of the Pendleton Board of Control, nor the right to equalize the poolers of the different counties.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but T. H. Alston, Raleigh, N. C., once prevented a wreck with Electric Bitters. “I was in a terrible plight when I began to use them,” he writes, “my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man.” A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Rich Haul by Forgers.

The Bank of Naples (Southern Italy) has recently been the victim of fraud to the extent of \$160,000, by means of genuine checks, the figures of which, however, had been cleverly altered and augmented with the aid of chemicals and a perforating machine. The trickster, of whom there is no trace, had checks cashed simultaneously at the branch offices in Turin, Florence and Rome.

Bones Act as Barometer.

The merits of bone as an indicator of fair or foul weather have been vouchsafed by the captain of an Italian steamer carrying a cargo of bones from Buenos Aires to New York. When the ship was sailing toward a storm the skipper stated, recently, the bones creaked and moaned, and when fair weather was ahead they were silent again.

Took Rank With the Best.

“No,” said the haughty Boola-Boolah, daughter of the King of the Cannibal Islands, as she arrayed herself in her necklace of missionary's teeth, and a nice, fresh smile, “these dressmakers of London, Paris, and New York have nothing on me!” And with her eyes beaming with happiness she swept regally into the ballroom.—Harper's Weekly.

Deep Childish Reasoning.

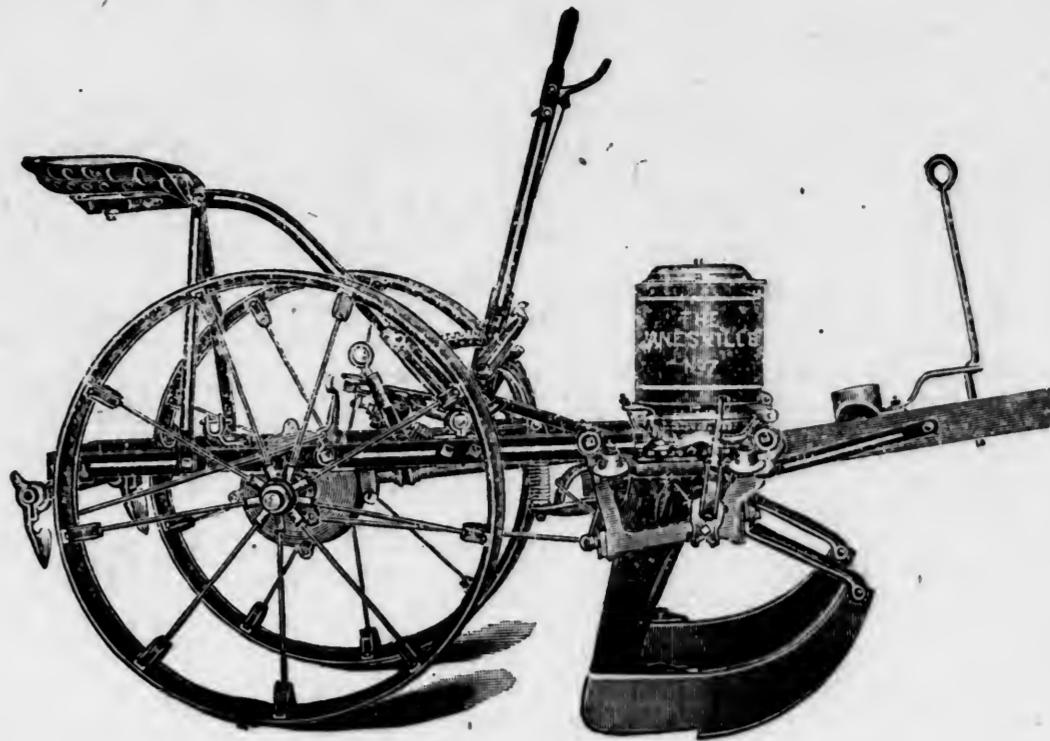

Father (to Margery, who has been a long time fetching the newspaper)—When you're asked to do anything, Margery, you should always run. Margery—Yes, I will, daddy; except, of course, I can't when my legs ache. Father—Rubbish; your legs never ache. Margery (indignantly)—Hoo! what's the use of the word “ache,” then?—Punch.

Gag for Noisy Geese.

The geese which play an important role in a certain opera recently presented in Milan, Italy, have been so noisy of late during rehearsals, drowning the voices of the singers, that a veterinary surgeon was consulted the other day, and he overcame the difficulty by inserting in the bill of each goose a chloroformed plug, causing temporary paralysis of the vocal chords, just before the rising of the curtain.

Do You Want Your Money's Worth?

Flanders "20" Touring Car, \$800

The next time an automobile salesman tries to sell you a car at a discount, tell him that the old “something for nothing” story can't fool you.

The best automobiles in the world are sold for their list price, not a penny less. They are worth it. But the lame ducks, the second rates, the nondescript and assembled automobiles are in the public market looking for the highest bidder. Look out they don't get you. If gold-brick cars are not worth their list price, how much are they worth? Nobody knows. Cut price deals are frauds.

But if you want a car of one price to all and worth every cent of it, get either a Studebaker E-M-F "30," \$1100, or Flanders "20," \$800. You can trust them. You get all that you pay for, and that is more than you get with any other car at near their price. Studebaker guarantees them—that's the big reason. No matter what price temptation falls in your way, Studebaker E-M-F "30" and Flanders "20" cars are far bigger bargains, because in years of good service and satisfaction they pay big returns.

We can prove it—Send for our new catalogue

EGYPTIAN BARON is a black horse 15.2. A grand individual and one of the best representatives of the great Baron Wilkes, now known as the Futurity family. He is one of the fastest best headed horses in Kentucky, and has been a mile over my three-quarter track, which is at least three seconds slower than Lexington, in 2:09, last half in 1:09, last quarter in :30. Although he is a pacer, he was a natural and fast trotter and could trot in 2:40 at two years old. Was raced a little for education, and proved himself a game level headed race horse, and if he stays right, we predict a record of 2:05 or better this year. He has served few mares, and his colts are good individuals and fast. One, a yearling, out of a pacing mare, is one of the best trotters, with his work, I ever had—traveled a mile, with few days work, last fall, in 2:58; last half in 1:26, last quarter in :42. Egyptian Baron will serve a few approved mares at

We have exerted every effort to make the opening of our establishment a memorable event in the history of Paris business institutions, and customers who ordinarily are hard to please, will find our facilities equal to the most exacting requirements. So far as we are concerned it is not sufficient that we employ union labor, but the Very Best Union Labor, and you know what that means. Notwithstanding our low selling prices, we can afford to employ the highest priced help because of our enormous business.

Your choice of 500 of the latest Spring creations for the marvelous price of \$15—no more—no less.

HIGHEST STANDARD MAINTAINED—We have located here to stay, and no garment is permitted to leave our establishment until it has passed critical inspection of our manager.

Why We Came

The day of the high-priced merchant-tailor is over. He simply has to go. He is passing away just as surely as the horse car has passed away with the advent of electric cars. And it is no wonder. Sensible men are tired of paying an extravagant price for a suit of clothes. The average merchant tailor did not realize he was making a mistake, so the coming of the modern tailoring establishment was inevitable. United Woolen Mills will give the men of this vicinity a genuine surprise when their magnificent store was formally opened Saturday. Every visitor was impressed with the fact that this concern is composed of real live business men. Every one will see that the establishment is up-to-date in every particular.

Everything made by the most experienced Union Tailors, and every garment will be strictly All-Wool.

\$15

Our Advantage

On account of owning a number of other large establishments, we are enabled to make purchases that would be impossible to the average tailoring concern. Not only do we obtain the most favorable concessions, but our aggregate purchases are so great that we control the output of various mills. And as we are just opening this store in Paris, you can be assured that every yard of goods in this establishment is new, coming direct from the mills to us. It is needless to remark that this is an advantage appreciated by every man who admires good clothes.

The leading features will be Suits and Overcoats to order at \$15.00, made of Scotch Tweeds, English Worsteds, Black and Blue Thibets and Silk Mixtures and the latest effects in Stripes, Checks and Plaids.

Millersburg experienced one of the hardest rainfalls Saturday night about 8 o'clock that we have had in many years. Small bridges and water-gaps were washed away and gullies badly washed. Water at the depth of several inches stood on the side walk in several places in town.

Col. C. M. Best, Capt. Howard Freas Cadets Parrish and May, of M. M. I., and Dr. C. B. Smith attended the funeral of Cadet Owlesley, at Stanford. He became ill some weeks ago, and was taken to the St. Joseph Hospital, Lexington, where he died Saturday afternoon.

What more appropriate gift can you give than a high grade watch. Next to ones family a watch is a person's closest companion. It is referred to many times a day. You can have it engraved with an appropriate inscription and in after years with what pride it will be shown to friends as the watch which dear old father and mother, or so-and-so, gave me on the day of my graduation.

Miss Jennie Maurie Pepper, one of the seniors in expression, gave a recital at the M. F. C. auditorium, Friday evening. She was greeted by a large audience. Miss Pepper is not only one of our most popular young ladies, but she is also a hard student at the M. F. C. and is a graduate this year in both expression and in literary department. As a reader, the people were largely familiar with her work and knew that they had every reason to expect much and were not disappointed. Parts of her program were very heavy and she managed her work with the care of a skilled artist. She is one of our most ambitious young ladies and does not mean to stop with this. She will probably attend the school of dramatic art at Cincinnati next season. She was supported by Misses Blackmon and Hurst as pianists, Misses Nell and Hurst violinists and Mrs. Deering as vocalist.

British Moving Picture Theaters.

There are now over 4,000 moving picture theaters in Great Britain and Ireland. Fully \$5,000,000 is said to be invested in the provision and working of halls alone, and over 32,000 people are employed. This leaves out of account the development of auxiliary branches of the industry. A total of 2,000,000 people represents approximately the daily audience of these picture shows.

Street Representative Here.

Mr. William Morgan, a representative of the National Bitumen Co. of Indianapolis, has been in the city for several days looking into the condition to the bitumen street, with a view of having much needed repair made in the very near future. Mr. Morgan went over the ground thoroughly and will endeavor to place the street in its former excellent condition. This being the last year the company assumes the work of repairing the street under their contract, the city officials will insist upon the thoroughfare being placed in good shape. It is the hope of Mr. Morgan to have a force of men begin on the work in the next few days that the repair work may be completed before the assembling of the Knights Templar here on the twenty-ninth of May for the annual conclave.

School Board Elects Teachers.

At a meeting of the Board of Education, Friday night, teachers for the next school year were elected. The position of assistant principal and instructor in Latin, which has been filled by Prof. W. O. Stackhouse, was not supplied. The Board having under consideration a number of applications, Prof. Stackhouse was not an applicant for re-election, and will go West for the benefit of his health.

Prof. T. B. Sporing, principal of the grammar department, was not an applicant for re-election, and this position was filled by the selection of Miss Maude Fisher, who for the past eight years, has been teaching in the graded schools of Tampa, Fla. Miss Fisher, who was formerly of this county, was elected to serve in the Tampa school during the next year, but preferred to accept the position in her home town. Prof. Sporing, the former principal, expects to enter State University for special work.

Miss Hazel Cottingham was re-elected instructor in the commercial department; Mrs. Evelyn Buck, drawing, and Miss Josie Alexander, teacher in English, Miss Marion Lynch, instructor in elocution and physical culture, was elected to succeed Miss Nell Wallace, and Miss Leora A. Wierd, of Springboro, Pa., was elected to succeed Miss Julia O'Brien in the musical department.

The following teachers in the grammar and primary department were re-elected: Misses Folsom McGuire, Bessie Purnell, Macie Talbot, Jessie Crisp, Clara Brannon, Anna Farrell, Lizzie Lenihan, Bettie Smith, Sallie Whaley, Mary Layton, Blanche Lilleston, Mrs. E. L. Stone, Mrs. E. L. Harris, Mrs. Newton Clark was re-elected as truant officer.

In the colored school F. M. Wood was elected principal, with the following teachers: Innes Towles, W. H. Evans, Mary Graves, Carrie Murray, Minerva Bedford, Eliza Johnson, Wila Steven and Lucille Anderson.

The following recommendation of the two teachers below were handed us yesterday by the secretary of the School Board:

Miss Leora A. Wierd, of Springboro, Pa., the newly elected music teacher, comes highly recommended. She is a graduate of Sugar Grove Seminary, Pa., the New England Conservatory of Music, of Boston, and the Juilliard Musical Institute, of Chicago. She successfully taught music in the High School at Marion, Ohio, for thirteen years, and her work is recommended in the highest terms by the superintendent, Board and patrons.

Miss Marion W. Lynch, of Worcester, Mass., the new teacher of Physical Education and Elocution, is a young woman of splendid attainments. While she has had but two years' experience, she is warmly endorsed both as a lady and teacher. She is a graduate of the Emerson School of Expression and the Posse School of Gymnastics, of Boston.

No Evidence Found.

A raid planned by the officers upon a suspicious house in the colored suburb of Clayville Sunday, in which it was believed liquor was being sold, was executed Sunday morning, but the officers failed to secure evidence that the law was being violated. When the officers entered they found a keg of beer from which several colored people had been drinking, but there was no evidence of it being sold.

Unable to Count Beyond Four.

A close observer has definitely established the fact that magpies and rooks cannot count further than four. A rook never returns to its nest until it is quite satisfied that there is no danger near. When four hunters or less departed in succession from a near-by log cabin, the rook would return to its nest after the last had gone out of sight. But whenever there were more the bird lost count and returned to its nest even while some were still in the hut.

He Wasn't an Angel.

During one of the earlier discussions of the United States tariff in the Canadian parliament, an opposition member characterized the attitude of the government on the question as "a sight that would make angels weep and jackasses laugh." The Hon. Frank Oliver, who was then minister of the interior, replied, with his usual deliberate calmness: "I have observed that the honorable gentleman has been one of those who laughed."—Judge.

Selz Fine Shoes For Men.

You hear a good deal now-a-days about "guaranteed" merchandise, especially Shoes.

Sometimes it's a guarantee that the shoes are made of good leather, with a lot of detail about the way they're made. Selz shoes are guaranteed to be satisfactory to you. What do you care what the shoes are made of if they're not satisfactory to you.

Sometimes it's a guarantee that the shoes shall wear a certain length of time. Selz shoes are guaranteed to be satisfactory to you. What difference does it make how long they last, if they're not satisfactory? The longer dissatisfaction lasts the worse off you are.

Selz shoes are guaranteed to be satisfactory; and that means YOUR satisfaction, not ours, or Selz. It means good leather, of course; poor leather wouldn't be satisfactory. It means long service, of course; a shoe that wears out too soon isn't satisfactory. It means correct style and good fit; you wouldn't be satisfied with anything less.

The Selz Guarantee

The name SELZ stamped on the sole of a shoe is a guarantee of absolute satisfaction. Remember, your dealer is authorized to see that you get absolute satisfaction from every pair of shoes bearing the mark—

**Every gallon pays a big dividend**

There's as much difference between sprayed and unsprayed vegetables as there is between those grown on good and poor soil. A gallon of spray material costs only a few cents, but the increase in the value of vegetables sprayed with it amounts to dollars. Try spraying as an investment.

S-W LIME-SULFUR SOLUTION gives very satisfactory results as an insecticide and fungicide. It is effective against all sucking insects and when used at a weak dilution it will effectively control fungus diseases. This preparation contains practically no sediment, is uniform and very strong. It will not crystallize or clog the sprayer.
